

## Tridonic Wireless Reference Plattform

Wireless Reference Plattform (WRP) is the name of Tridonic's own wireless architecture which is integrated in all new wireless products. This architecture allows us to be future proof thus can be equipped with various wireless ecosystems in the same hardware form factor.

Those products can easily be identified with the help of the WRP Logo which you can find either on the product or in the data sheet.

*Figure 1: Tridonic WRP Logo*

The wireless products in the standard portfolio support basicDIM Wireless (Casambi Ready) and Matter\*. Furthermore, additional protocols can be chosen upon request.

\* expected availability at the end of 2022
